# Acknowledgments

Where do I start, ☺ started my Ph.D. on the 1st June 2011. Travelled all the way from (south) India and ended up in a country "The Netherlands" (all I knew was Amsterdam for various other reasons). The first day, I reached Groningen station and Veerakumar was supposed to pick me up from the station. I guess everyone knows what is next: he didn't turn up. Luckily there was another Indian (Aditya) in Groningen station waiting for someone. I asked help, he dialed another Indian and it was none other than Bala from the 5<sup>th</sup> floor. First impression: there are more Indian in Groningen. After all possible chaos, finally, Sjef came to pick me up from the station and dropped me in the orange containers (Antillenstraat-Studio). The beginning of my Ph.D. wasn't easy. It took a while to get acquainted with new lab environment and people. Somehow, I managed to pull it off (took a bit long) and finally it's done!!

I would like to thank all the thesis reading committee members **Prof. J.J.G. Geurts, Prof. S. Amor, Prof. H.P.H. Kremer** for their effort, comments, and approval of my thesis.

I would like to thank my Promoter **Erik**, who is been very supportive throughout my Ph.D. duration and I also admire the way he works. Most of our enthusiastic conversations about the projects/ideas happened either in the corridor or in the elevator (getting hold of you has been always difficult). Most importantly, I am really thankful for all the possible advice/suggestions which I got from you in both professional and personal life.

I would also like to thank my daily supervisor/co-promoter **Sjef**, who is immensely supportive throughout my Ph.D. duration. Still, I remember our early morning drives from UMCG to BPRC for marmoset implantation experiments (sometimes you were driving really fast). I had a lot of wonderful discussions in the lab and also on our trip to Stockholm for the ISSCR meeting. Sjef, still we need to play squash sometime.

I would also like to acknowledge **Bert** from BPRC, who is been very enthusiastic from the start of my Ph.D. I got to know more about you after our trip to Gottingen primate center in Germany. Thank you for all the scientific discussions and other possible suggestions I got from you. Most importantly for your advice when I was in various critical situations during my Ph.D.

I would also like to acknowledge **Harrie**, who has been always very supportive and enthusiastic throughout my Ph.D. I admire the way you work, I am very thankful for all possible career advice and suggesting me to attend the neural stem cells course in Tuscany, which actually helped a lot during my Ph.D. in various projects. I had a wonderful time being part of your lab even though I didn't spent a lot time there. I have never seen such an active and vibrant atmosphere at work. I would like to also acknowledge **Steven**, whom I got know almost at the end of my Ph.D., a person who is always enthusiastic with creative ideas. I had a nice time working with you and also in other social activities (karting and squash) during the last few months. I wish you great success.

I would also like to acknowledge **Armagan**, who has been very supportive during last few years. Most importantly, I enjoyed all the scientific conversations and valuable inputs on various projects. I would also like to acknowledge **Jon** for his critical input and comments on my thesis in the final phase of my Ph.D. I am also thankful to **Bart**, for all the possible help and discussion. I am still looking forward to finishing the direct conversion project. I

would also like to acknowledge **Wia**, for all possible advice on various projects and helping with reagents/materials during my Ph.D.

**Henk**, I am really thankful to you for all possible support during the different stages of my Ph.D. I would like to also acknowledge **Harry** for helping with all the official arrangements and other possible official work. **Trix**, I always admire the way you are at work, always enthusiastic, organized, and arranging things on time. I had a lot of wonderful conversations with you about work, sport, and family. **Ietje**, thanks a lot for all your help during my Ph.D. in various projects. I had a really nice time working with you in the immuno lab with all our funny conversations. **Nieske**, I would like to also thank you for all your support in terms of experiments and organization in the lab. **Evelyn**, even though we didn't work together a lot, and I had a nice time working with you in the main lab and playing badminton was a lot of fun. I wish we could have continued bit longer. **Michel, Mr. Surf**, it was nice working with you, I am really thankful to you for all your support in imaging and other possible help in various projects. **Rob**, I am really thankful for everything you have done with recording, especially with your busy schedule. I enjoyed all the conversations with you about India, Netherlands, sport, skating and so on. **Inge**, although we didn't work together, I enjoyed all our conversations, thank you for organizing a wonderful barbeque at your place. **Wieb**, I had a lot of nice conversations with you and enjoyed all of those. Thank you for all of them. **Tjalling**, thanks for all your help during my Ph.D., especially helping with all equipment necessary for all our experiments in the lab. **Loes**, I would like to thank you at this moment, in the beginning you helped me a lot in the lab with work and cell culture.

**Marcin**, the one who started all the iPS work in the lab, we worked very closely for a very long time. I had really nice time with you, both at work as well outside: playing sports, party, and dinner. We both worked very hard in the lab, even on weekends without any breaks, because of the iPS cells (nature of our work). It was tough in the beginning but eventually we found a way to get things done by helping each other. I would like to also thank **Kasia** for organizing a nice party at your place. I wish you a great success. **Reinhard and Romy**, I also had a wonderful time with you guys both at work and outside. **Kumar**, we spent quite a lot of time together, I really like your line of thought and the way you formulate research questions. I had a wonderful time with you at the lab and outside. All our trips, cooking sessions at your place, my place, playing sports, and lot of intellectual discussion. I am really glad you got a good position in Texas, I have no doubt you will be a great scientist. I would also like to thank **Bindhu** who has been always cooking and arranging things for meetings on the weekends. I really miss you guys. **Divya**, my office roommate, I had a lot of nice scientific and political discussions with you. I always liked discussing with you about everything and thank you for your inputs, I wish you good luck with your scientific carrier. **Duco**, I had a nice time with you in the lab and sharing various information about work and other random stuff, I wish you a great success. **Ilia**, it was nice you were around, I had a nice time playing a lot of sports with you; basketball, badminton, and our company competition. I wish you a great success. **Suping**, I liked all our random conversation even though it was a bit difficult in the beginning, we all played a lot of badminton together and actually miss it!! And good luck for you as well. **Koen**, even though we had a lot of differences in opinion, I had a lot of nice conversations with you. I also wish you good luck with your new job. I would like to also acknowledge **Hilmar** and **Susanne**, thank you for all the nice conversations even though we didn't work together. I also would like to thank all the other

I would also acknowledge **Ben** from 7<sup>th</sup> floor for his support with EM work, **Jeroen** for his wonderful help with all the experiments and EM work. I would like to also acknowledge **Klaas** for his support with imaging in UMIC.

Now it's time to move a few floors down (**From 8<sup>th</sup> to 5<sup>th</sup>**). In the beginning, I used to drop by on the 5<sup>th</sup> floor now and then to meet **Harrie** to discuss work. I never bothered to introduce myself to anyone in the 5<sup>th</sup> floor except for **Jeanette** and **Melania**. Later things changed a lot!

**Melania**, I would like to acknowledge you for all the help in the beginning of the project. Later, I started working with **Jeanette**, who has always been very helpful with all the work for the SCA3 project. I enjoyed working with you and all our conversations about work and other things. Thanks a lot!! **Hette**, I started working with you in the last few months, it's a lot of fun working with you and our discussions about random stuff. Thank you for all the immuno work and sections. I would like to also thank **Maria** who has always been helpful.

**Abhinav (Abby bobby)**, since the time you joined the lab, I started visiting 5th floor quite often (Indian connection - for you, it took a while). It was a lot of fun talking to you, even though we know each other for quite a short time. We hang out a lot, you were hilarious with your jokes and entertained us with all possible random statements. In fact, we both have a nickname (**Team India**). I got quite close to everyone on the 5<sup>th</sup> floor because of you ☺. Thanks a lot. Yo, looking forward for more fun session. I wish good luck to you and **Megha. Els**, we know each other for the past couple of years, since our trip to CSHL. I was always a bit intimidated by your height ☺ (giraffe). I always remember you as a person who made fun of me every time I visited the 5<sup>th</sup> floor. I got to know you better relatively quickly, you're a person who is super independent, talented, who cares a lot for others (sometimes going out of your way), solo traveler (I read your blog: took a while to translate) and extremely nice person to hang out with!! ☺. I wish you good luck and great success. **Wouter**, it took a while for me to start talking to you, we got along really quick, you're a super nice guy to hang out with. I like the fact that you're super active (@work and social life) and enthusiastic about sports. I enjoyed all our squash session, karting, toepen (especially when is Abby involved), and poker sessions (we should do it again). Hope we continue playing more sports and tag more people. I wish you good luck with everything. **Despina**, well I don't know you so well, but I am happy you invited me for the new year party. I hope everything works out fine, good luck. **Niels**, Yo nerd, you are just hilarious, your jokes are fantastic and I liked all our conversations about work and table tennis. I am looking forward to playing some table tennis. **Rafa (pizzaaaa)**, nice that you're always there in all social activities, I wish everything goes fine with your work. I wish you good luck. I would also acknowledge **Eduardo**, for all his effort in SCA project and I hope to see you soon. **Carol** and **Elisabeth**, I can see you guys are hardworking and fun loving, I wish you good luck for both. **Moshin**, it's nice you're in a new place and I wish you good luck for your future plans. **Lara**, thanks a lot for all your help with work and also wish good luck for your future. **Cecilia**,
